

**LEVEL**  
**10**

### Cancer Centre

The Cancer Centre is home to specialist outpatient clinics providing expert advice and care for cancer conditions. On this level, you can also find the surgical oncology area, which is a mini hub where patients are seen by a multidisciplinary team consisting of surgeons, oncologists, nurse clinicians and therapists.

### Health Resource Centre (HRC)

The HRC is a one-stop educational hub for cancer patients and their caregivers to learn more about their conditions and attend various supportive care programmes to help them cope better with the disease.

### Oncology Wards @ NUH

The NCIS operates four oncology wards within NUH, housing more than 100 beds in total. They are Wards 56 and 58 located in the Main Building, and Wards 8A and 8C, located at the Kent Ridge Wing.

# ABOUT THE NATIONAL UNIVERSITY CANCER INSTITUTE, SINGAPORE

The National University Cancer Institute, Singapore (NCIS) is a national specialty centre under the National University Health System. Located at Levels 8 to 10 of the National University Hospital Medical Centre (NUH MC), it is the only public cancer centre in Singapore that treats both paediatric and adult cancers in one facility.

Focusing on a patient-centric approach, NCIS weaves together the expertise of medical professionals through multidisciplinary tumour groups. Working together cohesively, our dedicated team of specialists is committed to providing a seamless delivery of comprehensive and holistic care for each and every patient in the prevention, treatment and cure of cancer.

At the NCIS, we believe that **Every Person Matters**.

## Our multidisciplinary tumour groups include:

- Breast
- Colorectal
- Gynaecologic
- Haematologic (Adult & Paediatric)
- Head and Neck
- Hepatobiliary
- Musculoskeletal Cancer / Sarcoma
- Thoracic
- Upper Gastrointestinal
- Urologic

## PATIENT-CENTRIC FACILITIES

LEVEL  
8

### Radiation Therapy Centre (RTC)

The RTC is an outpatient centre providing radiation therapy and specialist consultation. It currently houses three linear accelerator machines and one brachytherapy machine.

### Breast Care Centre (BCC)

The BCC is a one-stop centre providing dedicated diagnosis and treatment for diseases of the breast with services such as breast imaging, breast surgery, breast preservation and reconstruction.

### NCIS Concierge

The NCIS Concierge offers assistance to international visitors seeking cancer treatment in Singapore. It provides a myriad of services, including appointment scheduling and travel assistance.

LEVEL  
9

### Viva-University Children's Cancer Centre (VUCCC)

The VUCCC is a one-stop centre housing all paediatric cancer patients. With a team of dedicated and specialised paediatric oncology nurses, the centre is committed to meeting the standard of care required for managing those undergoing chemotherapy and bone marrow transplant.

### Stem Cell Therapy Centre

The Stem Cell Therapy Centre caters specially to patients diagnosed with benign and malignant blood cancers with Haematopoietic Stem Cell Transplant needs. It is the only facility in Singapore performing autologous stem cell transplants on an outpatient basis.

### Chemotherapy Centre

The Chemotherapy Centre provides infusion and oral therapy treating adult oncology patients in an outpatient setting.

### Pharmacy @ NCIS

The Pharmacy @ NCIS is equipped with clean room facilities for chemotherapy drug preparation. Specialised drug compounding, provision and distribution services are also offered.
