

# KEEPING HER IN THE PICTURE

Breast cancer is the number 1 cancer affecting women in Singapore. Regular mammogram screening plays a vital role in detecting breast cancer early and can save lives.

Go for regular screening and remind your loved ones to do so. Together, let's make breast health a priority!

# LET'S GET SCREENED

In conjunction with Breast Cancer Awareness Month, NCIS will be offering a \$10 funding assistance on top of any prevailing funding assistance for women who are going for their mammogram screening for the first time under the HPB's Screen for Life Programme\*.

Duration: 1 October 2023 to 31 December 2023

Time: By appointment only

Locations: Bukit Batok Polyclinic  
Clementi Polyclinic  
Pioneer Polyclinic
